

Worksheet 43: Frequency Tables

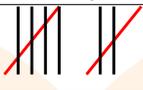

Name: _____ Date: _____

Score: _____

Section 1: Fluency (Questions 1–10)

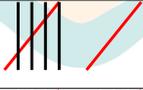

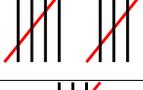

Question 1:

Count the tally marks and write the number in the Frequency column.

Category	Tally	Frequency
Red		
Blue		
Green		

Question 2:

Complete the frequency table by counting the tally marks.

Category	Tally	Frequency
Apple		
Orange		
Banana		

Question 3:

Fill in the Frequency column.

Category	Tally	Frequency
Dog	/	
Cat	/ / /	
Bird	/	

Question 4:

Count the tally marks for each colour.

Category	Tally	Frequency
Yellow	/ /	
Purple	/ /	
Pink	/ /	

Question 5:

Complete the table.

Category	Tally	Frequency
Soccer	/ / /	
Cricket	/ /	
Tennis	/ /	

Question 6:

Write the frequency for each transport type.

Category	Tally	Frequency
Car		
Bus		
Bike		

Question 7:
Count and complete.

Category	Tally	Frequency
Sunny		
Rainy		
Cloudy		

Question 8:
Fill in the missing frequencies.

Category	Tally	Frequency
Chocolate		
Vanilla		
Strawberry		

Question 9:
Complete the frequency column.

Category	Tally	Frequency
Fiction		
Non-fiction		
Picture		

Question 10:

Count the tallies and write the frequency.

Category	Tally	Frequency
Red		
Blue		
Green		

Good Job!

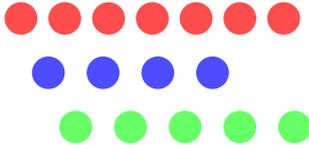

Why did the frequency table go to the gym? To work on its tally muscles!

Section 2: Reasoning (Questions 11–20)

Question 11:

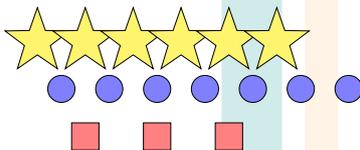

Count the coloured balls below and fill in the frequency table.

Category	Tally	Frequency
Red		
Blue		
Green		

Question 12:

Count the shapes and complete the table.

Category	Tally	Frequency
Stars		
Circles		
Squares		

Question 13:

Emma surveyed her class about favourite fruits. Record the data:

Votes: Apple, Apple, Banana, Orange, Apple, Banana, Orange, Apple, Orange, Orange

Category	Tally	Frequency
Apple		
Banana		
Orange		

Question 14:

Count the animals and fill in the table.

Dogs:
Cats:
Birds:

Category	Tally	Frequency
Dogs		
Cats		
Birds		

Question 15:

Tom recorded the colours of cars in the parking lot. Create a frequency table.
Red: 8 cars, Blue: 5 cars, White: 7 cars

Category	Tally	Frequency
Red		
Blue		
White		

Question 16:

Count the fruit emojis and complete the table.

Category	Tally	Frequency
Apple		
Orange		
Banana		

Question 17:

Sarah collected data on weather. Fill in the frequency table.
Sunny: 12 days, Rainy: 6 days, Cloudy: 9 days

Category	Tally	Frequency
Sunny		
Rainy		
Cloudy		

Question 18:

Count the sports equipment and complete the table.

Category	Tally	Frequency
Soccer balls		
Basketballs		
Tennis balls		

Question 19:

Jake surveyed 20 students about their favourite subject. Create the table.
Maths: 8, English: 5, Science: 7

Category	Tally	Frequency
Maths		
English		
Science		

Question 20:

Count the ice cream cones and fill in the table.

Category	Tally	Frequency
Vanilla		
Chocolate		
Strawberry		

Good Job!

What's a table's favourite type of music? Heavy data!

Section 3: Challenge (Questions 21–30)

Question 21:

Look at this frequency table. Which colour had the **highest** frequency?

Colour	Frequency
Red	12
Blue	8
Green	15

Answer: _____

Question 22:

How many **more** Red items were there than Blue items?

Item	Frequency
Red	14
Blue	9

Answer: _____

Question 23:

What is the **total** number of votes in this table?

Sport	Frequency
Soccer	10
Cricket	8
Tennis	6

Answer: _____

Question 24:

Which animal was chosen the **least**?

Animal	Frequency
Dog	15
Cat	7
Bird	11

Answer: _____

Question 25:

The table shows 30 students' favourite colours. Fill in the missing frequency.

Colour	Frequency
Red	12
Blue	10
Green	?
Total	30

Green frequency: _____

Question 26:

Tom collected 25 votes. How many voted for Pizza?

Food	Frequency
Pasta	8
Salad	6
Pizza	?

Pizza: _____

Question 27:

Create a frequency table for this data:

Emma asked 20 students: "Red" got 7 votes, "Blue" got 8 votes, "Yellow" got 5 votes.

Question 28:

Which two categories have the same frequency?

Item	Frequency
Apple	9
Orange	6
Banana	9

Answer: _____

Question 29:

If we add 5 more Red items to this table, what will the new Red frequency be?

Colour	Frequency
Red	11
Blue	8

New Red frequency: _____

Question 30:

Design your own frequency table. Choose a topic (e.g., favourite animals) and create 3 categories with frequencies.

Good Job!

Why did the data go to therapy? It had too many issues with frequency!

Answer Key

Worksheet 43: Frequency Tables

Question 1:

Red: 8, Blue: 5, Green: 12

Question 2:

Apple: 6, Orange: 9, Banana: 4

Question 3:

Dog: 7, Cat: 11, Bird: 3

Question 4:

Yellow: 10, Purple: 8, Pink: 5

Question 5:

Soccer: 15, Cricket: 9, Tennis: 6

Question 6:

Car: 13, Bus: 7, Bike: 10

Question 7:

Sunny: 12, Rainy: 4, Cloudy: 8

Question 8:

Chocolate: 11, Vanilla: 9, Strawberry: 5

Question 9:

Fiction: 14, Non-fiction: 8, Picture: 7

Question 10:

Red: 16, Blue: 12, Green: 9

Question 11:

Red: 7, Blue: 4, Green: 5

Question 12:

Stars: 6, Circles: 7, Squares: 3

Question 13:

Apple: 4, Banana: 2, Orange: 4

Question 14:

Dogs: 8, Cats: 5, Birds: 3

Question 15:

Red: 8, Blue: 5, White: 7

Question 16:

Apple: 6, Orange: 8, Banana: 4

Question 17:

Sunny: 12, Rainy: 6, Cloudy: 9

Question 18:

Soccer: 7, Basketball: 4, Tennis: 6

Question 19:

Maths: 8, English: 5, Science: 7

Question 20:

Vanilla: 9, Chocolate: 5, Strawberry: 7

Question 21:

Green

Question 22:

5 more

Question 23:

24 votes

Question 24:

Cat

Question 25:

8

Question 26:

11

Question 27:

Check table: Red (7), Blue (8), Yellow (5)

Question 28:

Apple and Banana

Question 29:

16

Question 30:

Check student's creative table

Worksheet 44: Introduction to Spreadsheets

Name: _____ Date: _____

Score: _____

Section 1: Fluency (Questions 1–10)

Question 1:

Look at the spreadsheet below. What word is in cell **A1**?

	A	B	C
1	Apple	5	Red
2	Banana	3	Yellow
3	Orange	7	Orange

Answer: _____

Question 2:

Using the spreadsheet from Question 1, what number is in cell **B2**?

Answer: _____

Question 3:

What colour is in cell **C1**?

Answer: _____

Question 4:

Look at this spreadsheet. What is in cell **A3**?

	A	B	C
1	Dog	8	Yes
2	Cat	12	Yes
3	Bird	4	No

Answer: _____

Question 5:

Using the spreadsheet from Question 4, what number is in cell **B1**?

Answer: _____

Question 6:

What word is in cell **C3**?

Answer: _____

Question 7:

Look at this spreadsheet. Circle the cell that contains the number 15.

	A	B	C
1	Soccer	10	Popular
2	Tennis	15	Growing
3	Cricket	8	Popular

Answer (cell reference): _____

Question 8:

In a spreadsheet, rows are numbered and columns are lettered. What letter is the **second column**?

Answer: _____

Question 9:

What is the cell reference for the **first row, third column**?

Answer: _____

Question 10:

Look at the spreadsheet. What is in cell **B3**?

	A	B	C
1	Red	12	Bright
2	Blue	9	Cool
3	Green	7	Fresh

Answer: _____

**Good Job!**

Why was the computer cold? Because it left its Windows open!

Section 2: Reasoning (Questions 11–20)

Question 11:

Draw a circle around cell **C3** in the spreadsheet below.

	A	B	C
1	Name	Age	Class
2	Emma	8	3A
3	Tom	9	3B

Question 12:

If I am in cell B2 and I move **one cell UP**, where will I be?

Answer: _____

Question 13:

If I am in cell A1 and I move **one cell RIGHT**, where will I be?

Answer: _____

Question 14:

Starting at cell C1, if I move **DOWN two cells**, where am I now?

Answer: _____

Question 15:

Which cell is **directly below** cell A1?

Answer: _____

Question 16:

Which cell is **directly to the right** of cell B3?

Answer: _____

Question 17:

Look at the spreadsheet. If I want to find "Cat", which cell should I look at?

	A	B	C
1	Dog	5	Loyal
2	Cat	Independent	
3	Fish	3	Quiet

Answer: _____

Question 18:

In column B, which cells contain numbers?

Answer: _____

Question 19:

Sarah wants to enter data in the **third row, second column**. What is the cell reference?

Answer: _____

Question 20:

If I start at B1 and move LEFT then DOWN, where do I end up?

Answer: _____

Good Job!

What do you call a computer that sings? A Dell!

Section 3: Challenge (Questions 21–30)

Question 21:

We want to add up all the numbers in column B. Which cells do we need?

	A	B	C
1	Apple	5	Sweet
2	Banana	8	Soft
3	Orange	3	Juicy

Answer: _____

Question 22:

Write the data for "Strawberry" (7 items, "Red" colour) into Row 2.

What would you type in cell A2? _____

What would you type in cell B2? _____

What would you type in cell C2? _____

Question 23:

Tom wants to change the number in cell B1 from 10 to 15. Which cell must he click on?

Answer: _____

Question 24:

Emma has data in cells A1, A2, and A3. She wants to add data in the cell just below A3. What is the cell reference?

Answer: _____

Question 25:

Look at the spreadsheet. What is the total of all numbers in column B?

	A	B	C
1	Red	6	Warm
2	Blue	4	Cool
3	Green	5	Fresh

Total: _____

Question 26:

In a spreadsheet, data is organized in rows and columns. If you have 3 columns (A, B, C) and 3 rows (1, 2, 3), how many cells do you have in total?

Answer: _____

Question 27:

Sarah collected this data: Dogs (12), Cats (8), Birds (5). Draw a simple spreadsheet showing this data with headers "Animal" and "Number".

Question 28:

Which is easier to read: a list of 50 items or a spreadsheet with those items organized? Why?

Answer: _____

Question 29:

Tom enters "15" in cell B2 but it should be "25". What must he do to fix it?

Answer: _____

Question 30:

Design your own mini spreadsheet. Choose a topic (e.g., favourite books) and create 3 rows of data with 3 columns.

Good Job!

Why did the spreadsheet break up with the calculator? Because it found someone with more cell-esteem!

Answer Key

Worksheet 44: Introduction to Spreadsheets

Question 1:

Apple

Question 2:

3

Question 3:

Red

Question 4:

Bird

Question 5:

8

Question 6:

No

Question 7:

B2

Question 8:

B

Question 9:

C1

Question 10:

7

Question 11:

Check circling of C3 (should be "3B")

Question 12:

B1

Question 13:

B1

Question 14:

C3

Question 15:

A2

Question 16:

C3

Question 17:

A2

Question 18:

B1, B2, B3

Question 19:

B3

Question 20:

A2

Question 21:

B1, B2, B3

Question 22:

A2: Strawberry

B2: 7

C2: Red

Question 23:

B1

Question 24:

A4

Question 25:

15

Question 26:

9 cells

Question 27:

Check spreadsheet with Animal/Number columns and correct data

Question 28:

Spreadsheet; it's organized and easier to find information

Question 29:

Click on cell B2 and change the value to 25

Question 30:

Check student's creative spreadsheet design
