

Worksheet 39: Posing Questions & Tally Marks

Name: _____ Date: _____

Score: _____

Section 1: Fluency (Questions 1–10)

Question 1:

Write the number shown by these tally marks.

Answer: _____

Question 2:

Write the number shown by these tally marks.

Answer: _____

Question 3:

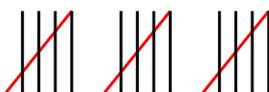

Write the number shown by these tally marks.

Answer: _____

Question 4:

Write the number shown by these tally marks.

Answer: _____

Question 5:

Write the number shown by these tally marks.

Answer: _____

Question 6:

Write the number shown by these tally marks.

Answer: _____

Question 7:

Write the number shown by these tally marks.

Answer: _____

Question 8:

Write the number shown by these tally marks.

Answer: _____

Question 9:

Write the number shown by these tally marks.

Answer: _____

Question 10:

Write the number shown by these tally marks.

Answer: _____

**Good Job!**

Why did the tally marks go to the party? Because they knew how to count on each other!

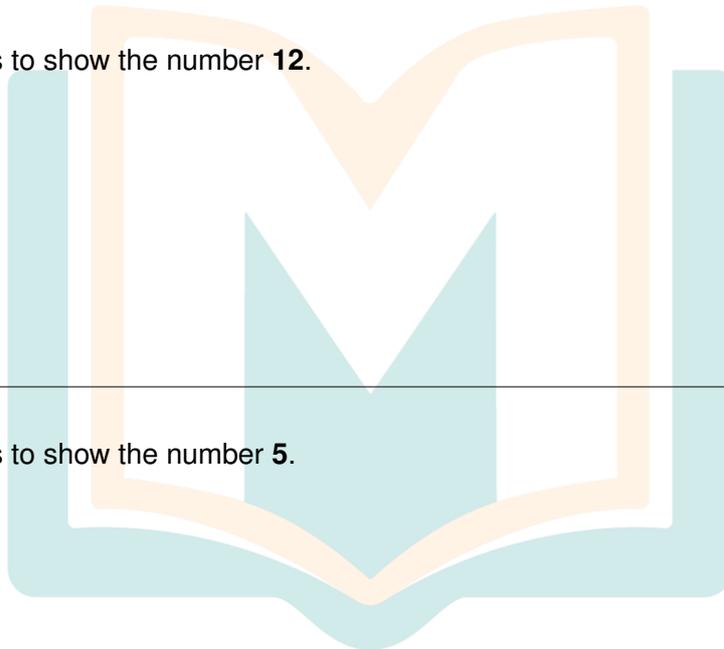

Section 2: Reasoning (Questions 11–20)

Question 11:

Draw tally marks to show the number **8**.

Question 12:

Draw tally marks to show the number **12**.

Question 13:

Draw tally marks to show the number **5**.

Question 14:

Draw tally marks to show the number **17**.

Question 15:

Draw tally marks to show the number **24**.

Question 16:

Emma drew these tally marks:  . How many more tally marks does she need to show 20?

Answer: _____

Question 17:

Tom has 3 bundles of tally marks (each bundle has 5). How many tallies does he have in total?

Answer: _____

Question 18:

Sarah wants to record 22 votes using tally marks. How many complete bundles of 5 will she have?

Answer: _____

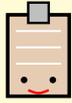

Question 19:

Draw tally marks to show the number 10.

Question 20:

Look at these tally marks:  . Circle the bundles of 5.

Good Job!

What do you call a number that can't sit still? A roamin' numeral!

Section 3: Challenge (Questions 21–30)

Question 21:

Circle the **best question** for a class survey:

- A) "What is your favourite colour?"
- B) "Do you like blue?"

Answer: _____

Explain why: _____

Question 22:

Which question would give you **more information**?

- A) "How do you get to school?"

Design a tally mark chart to record votes for favourite ice cream flavours: Chocolate, Vanilla, Strawberry.

Question 30:

A survey question asks: "How many books did you read last month?" Is this a good question for collecting data? Why?

Answer: _____

Good Job!

Why was the data scientist so calm? Because they knew how to stay within range!

Answer Key

Worksheet 39: Posing Questions & Tally Marks

Question 1:

7

Question 2:

12

Question 3:

3

Question 4:

15

Question 5:

9

Question 6:

20

Question 7:

6

Question 8:

18

Question 9:

11

Question 10:

24

Question 11:

Check drawing: 1 bundle of 5 + 3 marks

Question 12:

Check drawing: 2 bundles of 5 + 2 marks

Question 13:

Check drawing: 1 bundle of 5 marks

Question 14:

Check drawing: 3 bundles of 5 + 2 marks

Question 15:

Check drawing: 4 bundles of 5 + 4 marks

Question 16:

7 more tally marks

Question 17:

15 tallies

Question 18:

4 complete bundles (with 2 extra)

Question 19:

Check drawing: 2 bundles of 5

Question 20:

Check circling: 3 complete bundles

Question 21:

A; Explanation: Gives more options/variety of answers

Question 22:

A

Question 23:

B

Question 24:

B

Question 25:

Yes; Explanation: Two bundles of 5 correctly show 10

Question 26:

Example: "What is your favourite lunch food?"

Question 27:

It allows different answers, not just yes/no

Question 28:

23 items

Question 29:

Check table with three rows and tally/number columns

Question 30:

Yes; it can be answered with countable data

Worksheet 40: Organizing Data

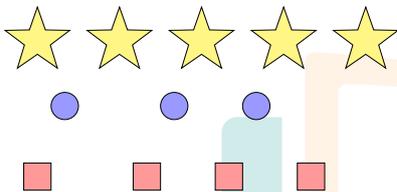

Name: _____ Date: _____

Score: _____

Section 1: Fluency (Questions 1–10)

Question 1:

Count the shapes below and fill in the table.

Category	Tally	Number
Stars		
Circles		
Squares		

Question 2:

Count the fruits and complete the table.

Apples:
Bananas:
Oranges:

Category	Tally	Number
Apples		
Bananas		
Oranges		

Question 3:

Count the animals below and fill in the table.

Dogs:
Cats:
Birds:

Category	Tally	Number
Dogs		
Cats		
Birds		

Question 4:

The shapes below show votes for favourite colours. Count them.

Red:

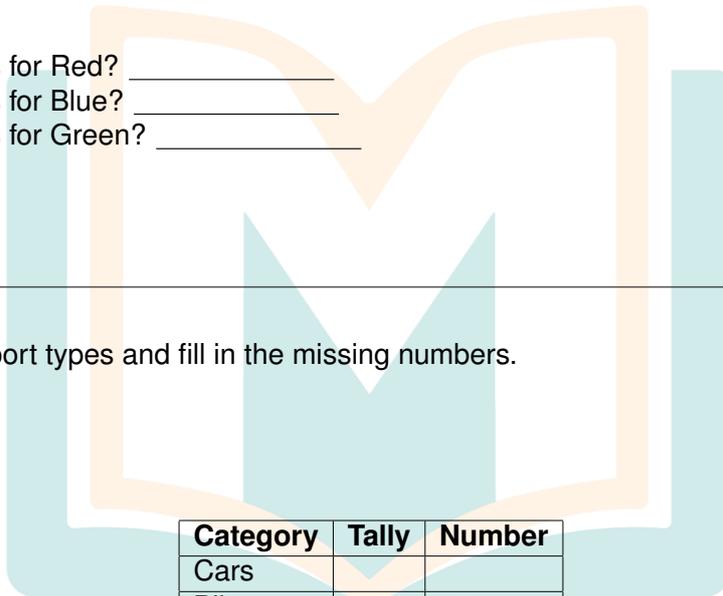

Blue:

Green:

How many votes for Red? _____

How many votes for Blue? _____

How many votes for Green? _____

Question 5:

Count the transport types and fill in the missing numbers.

Cars:

Bikes:

Buses:

Category	Tally	Number
Cars		
Bikes		
Buses		

Question 6:

Emma counted items in her pencil case:

Pencils:

Erasers:

Rulers:

Complete the table:

Category	Tally	Number
Pencils		
Erasers		
Rulers		

Question 7:

Count the weather symbols for last week:

Sunny:

Rainy:

Cloudy:

Sunny: _____

Rainy: _____

Cloudy: _____

Question 8:

Tom surveyed his class about favourite sports. Count the responses:

Soccer:

Basketball:

Cricket:

Which sport is most popular? _____

Question 9:

Count the ice cream flavours chosen:

Chocolate:

Vanilla:

Strawberry:

Category	Tally	Number
Chocolate		
Vanilla		
Strawberry		

Question 10:

Count the book types in the library corner:

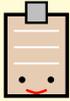

Fiction:

Non-fiction:

Picture books:

How many books in total? _____

Good Job!

Why did the table get promoted? Because it was well-organized!

Section 2: Reasoning (Questions 11–20)

Question 11:

Class 3B voted for their favourite sport:

- Cricket: 5 votes
- Soccer: 12 votes
- Tennis: 3 votes

Which sport is most popular? _____

Question 12:

Using the data from Question 11, how many students voted in total?

Answer: _____

Question 13:

Sarah collected data on favourite colours:

- Red: 8
- Blue: 6
- Green: 4

Which colour is **least** popular? _____

Question 14:

Tom's class voted for a class pet:

- Fish: 7 votes
- Rabbit: 9 votes
- Guinea pig: 5 votes

How many more votes did Rabbit get than Fish? _____

**Question 15:**

Emma surveyed 25 students about their lunch. 10 brought sandwiches, 8 brought pasta. How many brought something else?

Answer: _____

Question 16:

Look at this data:

Fruit	Votes
Apple	12
Orange	8
Banana	6

How many people chose Apple or Orange? _____

Question 17:

A class has 30 students. 15 walk to school, 10 come by car. The rest take the bus. How many take the bus?

Answer: _____

Question 18:

Jake counted vehicles: 8 cars, 5 bikes, 2 trucks. How many vehicles in total?

Answer: _____

Question 19:

Students voted for movie types:

- Comedy: 14
- Action: 11
- Adventure: 9

What is the difference between the most popular and least popular?

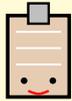

Answer: _____

**Question 20:**

Lisa organized her stickers:

Type	Number
Animals	15
Stars	10
Hearts	12

How many stickers does Lisa have altogether? _____

**Good Job!**

What did the data say to the chart? "You complete me!"

**Section 3: Challenge** (Questions 21–30)**Question 21:**

The table shows votes for favourite season. There are 20 votes total. Fill in the missing number.

Season	Votes
Summer	10
Winter	5
Autumn	?

Autumn votes: _____

Question 22:

Tom collected data on 30 students' eye colours:

- Brown: 18
- Blue: 8
- Green: ?

How many students have green eyes? _____

Question 23:

A survey shows:

Pet	Number
Dogs	12
Cats	9
Birds	4
Fish	?
Total	30

How many students have fish? _____

Question 24:

Emma's class voted for lunch options. Pizza got twice as many votes as salad. Salad got 6 votes. How many votes did pizza get?

Answer: _____

Question 25:

Sarah organized data on favourite subjects. Maths and English together got 20 votes. Maths got 12 votes. How many did English get?

Answer: _____

Question 26:

Complete the table. The total number of students surveyed is 24.

Transport	Number
Walk	10
Car	8
Bus	?

Bus: _____

Question 27:

Tom recorded drinks sold: Water (15), Juice (12), Milk (?). Total sold was 35. How many milk drinks were sold?

Answer: _____

Question 28:

In a class survey, 18 students chose outdoor games and 7 chose indoor games. The rest had no preference. There are 30 students. How many had no preference?

Answer: _____

Question 29:

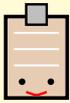

Create a simple table to organize this data: Jake saw 8 red cars, 5 blue cars, and 3 white cars.

Question 30:

A bakery sold: Muffins (20), Cookies (15), Cakes (10). If they want to make a table showing this data, what would be the total in the "Total Items Sold" row?

Answer: _____

Good Job!

Why did the statistician bring a ladder? To reach the higher data points!

Answer Key

Worksheet 40: Organizing Data

Question 1:

Stars: 5
Circles: 3
Squares: 4

Question 2:

Apples: 6
Bananas: 3
Oranges: 5

Question 3:

Dogs: 4
Cats: 7
Birds: 2

Question 4:

Red: 8
Blue: 5
Green: 3

Question 5:

Cars: 6
Bikes: 4
Buses: 2

Question 6:

Pencils: 5
Erasers: 3
Rulers: 2

Question 7:

Sunny: 4
Rainy: 2
Cloudy: 1

Question 8:

Soccer (8 votes)

Question 9:

Chocolate: 7
Vanilla: 4
Strawberry: 5

Question 10:

15 books

Question 11:

Soccer

Question 12:

20 students

Question 13:

Green

Question 14:

2 more votes

Question 15:

7 students

Question 16:

20 people

Question 17:

5 students

Question 18:

15 vehicles

Question 19:

5 (14 - 9)

Question 20:

37 stickers

Question 21:

5 votes

Question 22:

4 students

Question 23:

5 students

Question 24:

12 votes

Question 25:

8 votes

Question 26:

6 students

Question 27:

8 milk drinks

Question 28:

5 students

Question 29:

Check table: Red (8), Blue (5), White (3)

Question 30:

45 items
